

PARALYMPICS NEW ZEALAND **CLASSIFIER APPLICATION FORM**

Achieving is Believing.

Classification is a unique and integral part of disability sport. Classification systems are sport specific and ensure that athletes with a disability can compete at the highest level, regardless of individual differences in physical function.

Paralympics New Zealand is committed to providing training for classifiers across all sports. If you are interested it will require participation in classification workshops in order to learn the sport specific classification system and a time commitment for assisting classification in your area.

Please complete this form if you are interested in becoming a classifier.
